

## FFB63400PW Dishwasher

### CORNER-TO-CORNER. COVERED

Even closely stacked or larger dishes should receive corner-to-corner cleaning. Now, the innovative satellite spray arm in the new AEG dishwasher ensures that every corner of the machine and every inch of the items inside are reached by spraying water thoroughly

### The dishwasher that adapts to each item

With the dishwasher's ProZone program, you can use different settings to clean both the upper and lower baskets at the same time. It's perfect for cleaning mixed loads.

### Drying naturally

The new Airdry technology lets you maximise your drying performance with natural airflow. The door automatically opens up 10 cm when the cycle is in the last stage and the dishes are done. It dries your dishes naturally while also reducing your energy

### More Benefits :

- Bespoke cleaning comes as standard in AEG dishwashers with sensors that automatically adjust the time, temperature and water to the load.
