- Lower basket with 2 foldable plate racks, GlassHolder, Plastic coloured handle
- AQUA-CONTROL
- Installation in height
- Indications for salt and rinse aid

Open the door to dry dishes

AirDry delivers up to 3x better drying performance when compared to closed-door systems. The door automatically opens at the end of the drying phase and air is circulated inside the machine. Dishes emerge perfectly dry. Every time.

Fast and efficient performance

This dishwasher gives you perfect performance - fast, thanks to its special half-hour program.

Always know exactly when the dishwasher is done

Thanks to TimeBeam you can be fully up to date on the status of your dishwashing cycle at a glance. While the cycle is still in progress, TimeBeam technology projects the remaining amount of time in a clear red light on the floor. Simple, straightforward and effective.

Efficiently clean. In every cycle

The special sensor in our AutoSense program detects how much cleaning your dishes need. Using just the right amount of water, energy and time needed to do the job properly. Meaning dishes are cleaned in the most eco-friendly way possible.
