

**Gives you some of the quickest results possible!**

The ceramic cooking zones on this hob heat far more rapidly than solid hot plates, enabling you to boil water and cook meals even faster.

**Product Benefits & Features**

**Why have two control panels, when just one will make life easier?**

This hob is controlled via the panel on the oven – it couldn't be more convenient. There's only one place to look at, whether you want to adjust the oven or the hob.

- Hob without controls, for combination with oven or separate control panel
- Fast heating highlight cooking zones
- Number cooking zones
- Built in type: On-top
- BI-Oven Control
- Residual heating indicator: 4
- Ceramic glass colour: Black

**Perfectly matched heating for all your pots and pans**

The two different-sized cooking zones on this hob are suitable for pots and pans with a variety of dimensions, for easy, flexible cooking.

**The less-housework hob!**

The smooth ceramic glass surface of this hob makes for less housework, and more fun! All it takes is a few wipes to leave it sparkling clean.

**The hob that lets you know it's still hot!**

The residual heat indicator on this hob reduces the chance of accidental burns in the kitchen. It lets you see at a glance if the burner is still hot.
